

Tomasz Radecki

Summary of experience

During study I have worked on:

- Creating websites using html, css, php, JavaScript (<https://robssson.github.io/index.html>)
- Creating football application using C# (<https://github.com/robssson/GAMER>)
- Designing databases using MySQL
- Learning econometrics (since this year)

In my own time I am working on:

- Android (I developed simple applications)
- Machine learning (I am very interested about this topic)

Technical skills

Technologies I learn now:

Java, HTML5, JavaScript, Git, Android, Machine Learning

Technologies I used in the past:

Pascal, C, C++, C#, Python, SQL

Experience

Internship in Spider-net (Italy)

Autumn 2013

I was servicing PC hardware, configuring local internet networks and helping company's clients with configuring operating systems. I learned how to represent company's interests with competence.

Education

Currently I am a student of Information Technology and Econometrics at University of Science and Technology (AGH), Cracow (second year)

Mindset

- I *love* learning new things;
- My todo-list of textbooks and tutorials is in use every day, though never getting shorter;
- I am very inquisitive and often get excited about research findings.
- I like running, playing football and tennis - that last one I only watch, but maybe some day...

Personal and contact information

- Born: July 7th, 1995
- Address: Lea 140/5, Krakow, Poland
- Contact: tomekradecki@gmail.com, 603926835

I hereby agree for my personal data, included in my job application, to be processed in line with the needs of recruitment.
